20 October 2009 - Gallinea exhibit latest products from Innovation for Boats division

Gallinea company exhibited two of their latest developments from their Innovation for Boat's division at the 49th Genoa B

iBoat ADHP version dock-station

Gallinea has announced its new iBoat ADHP version dock-station will be marketed with the "Made for iPod" trademark. Brescia for the nautical environment, has finally received approval from Apple, probably the world's most famous multim previewed at Gallinea's stand (Pad. C-Stand M25) at the 49th Genoa International Nautical Boat Show and is also fea *Santarpia 55*.

Gallinea began as a basic supplier of nautical accessories for European shipyards, specialising in windscreen wipers. Innovation for Boat division has been responsible transforming the company and generating its direction in new ma version dock-station was the result of the collaboration between Gallinea's locations in Cupertino (California, USA) and P

The ADHP version is the latest product in the iBoat product range for the Innovation for Boat division, who are delight station with the "Made for iPod" trademark. Andrea Gallinea, from the Innovation for Boat division commented "*It has i having the 'Made for iPod' trademark*". The trademark signifies that the device has been designed to connect specific by the developer to meet Apple performance standards.

Erato air diffuser

Gallinea has also announced the new Erato air diffuser for onboard use, the successor to Enjoy. Erato is the nautical ver diffuser, Enjoy, a product by Scent Company which uses a variety of liquid oils soluble in water. A sophisticated release s design to keep a constant perfuming in large rooms or cabins with adjustable intensity to create long-lasting aroma.

Andrea Gallinea, from the Innovation for Boat division explains: "*An idea borrowed from the most modern 5 stars SPA. Ei order to transform bathroom areas into real wellness areas. Inspiring principles of this spreader are hygiene and an aim t boards safe, particularly after long durations in crowded docks. Erato's Sanity version uses technology already used in a rooms*".

Erato was also exhibited at the 49th Genao Boat Show this year.
